Executive Insights

- Revenue growth is primarily driven by new customer acquisition
- Customer retention is extremely low (~3%), indicating weak repeat behaviour
- Delivery delays reduce average rating significantly (4.29 → 2.57)
- Revenue is concentrated in a few key product categories
- Customer acquisition is concentrated in only 5 states
- Credit card dominates payments (~74%), indicating digital preference

9. **Rating and Review:**
   - "Books general interest" has been the Highest rated category with **4.45 stars** while "Security and services" category has been the Lowest Rated category with **2.5 stars**.
   - Delay in delivery has significantly affected the ratings. Average Rating of **4.29 stars** for **Timely Delivered Products** was drastically down to **2.57 stars** in cases of **Delayed Delivery**.
10. **Key Recommendations For Business Development:**
   - **Marketing** and **Customer Penetration** in other 24 States needs to be focused upon significantly.
   - To improve the Customer Retention, "**Targeted Offer Campaigns**" should be introduced occasionally especially for Credit Card users.
   - Logistics Department need a serious reform to ensure almost all the orders are **Delivered Timely** and hence User Experience and Overall Platform Rating is increased significantly, which would further increase the chances of higher **Customer Retention** and **New Customer Acquisition** from other states.
   - Sellers, selling products which received **significantly lower ratings** below average must be engaged to ensure they improve the **Quality** of their Products.
